CONNECTION NOT YET MADE

ONE WITNESS IN CONTEMPT OF COURT.

Boise, Idaho, Sept. 30 .- Federal Judge Whitson, who is presiding at the trial of United States Senator W. E. Borah, noti-fied the prosecution today that the case had reached the point where some testi-mony connecting the defendant on trial with the alleged Idaho land fraud con-spiracy must be presented. "Great latitude has been allowed you,"

declared the court, "in the presentation of testimony here on the promise that the defendant would be connected with the alleged conspiracy. But there is a time when the court has to control the order of proof. Beginning tomorrow morning you will confine your testimony

to the defendant on trial."

The attorneys for the government, acting on this suggestion, said they would offer in evidence tomorrow the records of the county cierk's office showing that scores of timber deeds had been admitted

sired the county records in evidence, regardless of the admissions of the defense. Judge Whitson's notification to the government's two most important witnesses. It gave an official intimation of the status of the case against Senator Borah, which became more significant when Prosecutor Rush stated tonight that the government's case undoubtedly

would be concluded tomorrow.

The trial went on this afternoon after an abandonment of the morning session because of the illness of one of the jurors, which was thought for a time to jurors, which was thought for a time to be of such a nature as to cause a serious delay in the conclusion of the case.

The testimony again had to do largely with the actions of former Governor Steunenburg in land dealings. Attorney Hawley protested against witnesses being allowed to give conversations with Steunenburg seving they had be a localized. Steunenberg, saying they had no bearing on Senator Borah's case and tended only "to blacken the memory of a man who cannot answer."

Refused to Produce Books.

The liveliest incident of the day was when L. G. Chapman, general manager of the Barber Lumber company, was called to the stand as a government witness. Mr. Chapman brought many books and much correspondence which the government desired, but refused point blank to produce the company's account books showing the amounts paid for timber lands and to whom. He declared the information contained in the books could not assist the jury in the matter on trial but might tend to incriminate Chapman as an officer and stockholder in the company. The matter of requiring Chapman to produce the books went over for ar-gument tomorrow. Chapman has his own counsel and Senator Borah's lawyers took no part in the controversy.

no part in the controversy.

The two important witnesses of the day were E. E. Garrett, receiver at the Boise land office, and L. L. Sharp, the special agent of the general land office, who was sent to Idaho by former Land Commissioner Binger Hermann. Garrett said that Borah came to his house one evening and acheel regrating some contested. ing and asked regarding some contested land claims, as to whether hearings were

WILL TAKE PLACE TODAY

(Special to The Herald.)

Twin Falls, Ida., Sept. 30.—The biggest land sale that ever took place in the western country and possibly in the United States will be held at Jerome tomorrow morning. People have been arriving daily from all over the United States to take part in the drawing. The site of a city and about 170,000 acres of land will be disposed of. In the drawing, the winner will have the first selection of a lot for which \$5,000 has been offered. There are offers as high as \$4,200 for second choice. Jerome is thirteen miles from Shone. The drawing and sale is under the auspices of the Twin Falls Northside Land & Water company.
